Project Activity Highlights

October 2026 Report

01OCT - 01NOV

General updates

Collaboration

October 17 Event: Meeting · Manual entry

Coordinating an accessible review of cross-project reporting.

- Collect reviewer feedback.
- Revise the summary sequence.

Data

October 8 Manual entry

Published a reusable sample data dictionary for the pilot.

- Defined units and missing-value codes.
- Added a short reuse note.

PROJECT ACTIVITY HIGHLIGHTS 01OCT - 01NOV

Principal Investigator Avery Chen **Sponsor** Office of Science

Project status: On track

October 31

The data service pilot is on track for its next review.

The pilot can proceed without changing its current milestone.

Evidence: A sample export passed the accessibility check.

Completed

1 entry

Method

October 13 Event: Workshop · Manual entry

Revised the sample collection protocol after a pilot workshop.

- Clarified two ambiguous collection steps.
- Checked the revised sequence with field staff.

In progress

1 entry

Software

October 21 Manual entry

Testing the retry path for partial uploads.

- A partial transfer can be retried.
- The check looks for duplicate observations.

Project Borealis

Scientific software sustainability

software sustainability

PROJECT ACTIVITY HIGHLIGHTS 01OCT - 01NOV

Principal Investigator Morgan Rivera **Sponsor** Advanced Scientific Computing Research

Project status: At risk

October 31

The software sustainability work needs a revised delivery date.

Leadership can help confirm a replacement review window.

Health context: A partner dependency may delay the planned handoff.

Risk or dependency (Coordination with partner): Partner review time has not been confirmed.

Upcoming

1 entry

Personnel

October 27 Event: Training · Manual entry

Train maintainers on the revised release checklist.

- Schedule a supervised exercise.

Statuses and activity categories

Status

The heading color shows the state of work when an update was recorded.

Completed

Teal. Work finished at the recorded date.

In progress

Blue. Work underway at the recorded date.

Upcoming

Amber. Work expected at the recorded date.

Activity categories

Category icons use the text color of their status heading; general updates use blue.

Administration
Project governance, coordination, and records.

Collaboration
Partnerships and joint working groups.

Data
Data collection, curation, release, and stewardship.

Engagement
Communication with audiences, sponsors, or stakeholders.

Funding
Proposals, awards, and funding management.

Infrastructure
Facilities, equipment, and technical platforms.

Method
Methods, protocols, and research workflows.

Other
Activity outside the listed categories.

Personnel
Team membership, staffing, and training.

Publication
Papers, reports, and other published outputs.

Research
Experiments, analysis, and findings.

Software
Code, repositories, tools, and releases.

Status describes progress; category describes the kind of activity. Labels accompany every color and icon.
